**COMMUNICATION:**Presentations,GD

**TEAM LEADERSHIP:**Adaptive Team Management

## Work Experience

**Web Developer Intern | Neuron.ai | [Certificate](#)** **Oct 2024 – Nov 2024 (Remote)**

- Contributed to the development and optimization of web applications, focusing on performance and user experience to deliver high-quality, scalable solutions within tight deadlines..
- In my role as the frontend developer, I was responsible for designing and implementing interactive user interfaces, ensuring seamless responsiveness across devices, and optimizing overall performance.
- The project's goal is to create a web application that streamlines teacher-student interactions by using an efficient appointment scheduling system. It facilitates communication by offering an organized venue for consultations, meetings, and academic contacts.
- we finished the Project successfully, and my participation was acknowledged with an experience letter.

## Projects

**Teacher's Connect | [LINK](#)    GitHub | [LINK](#)**

- A web application streamlining teacher-student interactions through an efficient appointment scheduling system.
- It bridges communication gaps by providing a structured platform to manage consultations, meetings, and academic interactions.
- Technologies used :** MERN STACK

**Smart Mirror | [LINK](#)    GitHub | [LINK](#)**

- A two-way mirror with an integrated display behind the glass is termed a smart mirror. It functions as a standard mirror while displaying data such as the TIME, WEATHER, NEWS, AND OTHER ENTERTAINMENT purpose like YOUTUBE . It often has access to the internet or a smart home system.
- Technologies used :** KALI OS , JAVASCRIPT

**Interactive Learning | [LINK](#)    GitHub | [LINK](#)**

- The website provides a concise explanation, summarises the material, and provides a live demonstration with audio feasibility. This is what makes the website truly unique. •
- Technologies used :** HTML,CSS,JS

# Awards and Recognitions

## Smart Mirror :

As the team leader, I guided our group to victory and we won THIRD prize at the hackathon •

It consists of 4stages like 1st round is MCQ,2nd round is Idea presentation,3rd round is paper presentation, and the final round is 24hrs hackathon. .

Mahendra Educational Institutions | Catch-24

Hackathon - [Certificate](#)

## TANCAM HACKATHON :

My project has advanced to the next round, and our heads of department and principals have shown even greater appreciation for rajalakshmi engineering college chennai-.TANCAM 4.0

Hackathon- [Certificate](#)

---

## WIBRO JAVA FULLSTACK: - TalentNext **Certifications**

successfully completed my four weeks of training in talentnext program

## Web Development - Internship :- Imagecon

[Certificate](#)

- Successfully completed an internship focused on full-stack web development, enhancing skills in building and deploying dynamic web applications.
- Received a certificate of completion in recognition of contributions and project delivery.

## Work Experience - Web Developer Intern | Neuron.ai

[Certificate](#)

I finished the Project successfully, and my participation was acknowledged with an experience letter.
